

## **Announcement**

*I am pleased to announce that effective 16 June 2008, Anthony E. Ligato will join Strategic Power Systems, Inc. ® (SPS) in the capacity of President & Chief Operating Officer. Anthony comes to SPS with over thirty years of experience in the energy industry. In his most recent role as Vice President – Power Asset Management for Direct Energy, a Centrica company, Anthony acquired and managed a fleet of combined cycle plants that provided approximately 1,300 Mw in the Texas retail market. Additionally, Anthony’s organization provided asset management for Direct Energy’s 800 Mw of wind off-take contracts. Through his leadership and expertise, his dedication to customer, and his personal commitment to excellence, he has built an organization focused on execution and delivery; expecting and achieving sustainable “best in class” performance from his plants and operating staff.*

*As an executive and asset manager, Anthony understands the importance and economic value of availability, reliability, and maintainability for an equipment owner and operator in today’s competitive global energy market. He has relied on the ORAP® system to support his financial and operational goals and objectives, and appreciates what is required to increase participation levels across all existing and developing generating technologies, including renewable energy and wind. He will focus on strengthening the added value of the ORAP system as a current, unbiased, and reliable information resource for the industry. As President & COO of SPS, he will drive our commitment to customer and direct the required level of effort to ensure that the ORAP Family of Products and Services continue to improve; meeting the ever changing needs and challenges of a dynamic global energy market.*

*Anthony has a broad and varied experience, including structured finance and portfolio management with GE Capital Services where he managed a \$1 billion portfolio. He has direct operating and General Management experience with various operating companies and cogeneration facilities; PG&E Generating Company, US Generating Company, J. Makowski Company, Selkirk Cogen partners and TBG Cogen Partners. His engineering experience includes work with Textron Lycoming, GE Aircraft Engine Group, and GE Steam Turbine Department. Anthony has received an MBA from Columbia University, a MSME from Northeastern University, and a BSME from Rutgers University.*

*Please join me in welcoming Anthony Ligato to the SPS team. I look forward to the opportunity to introduce him to you in the near future. You can be assured of his dedication and you will benefit from his commitment and focus on adding value for you.*

Respectfully,

A handwritten signature in black ink, reading "S.A. Della Villa Jr." in a cursive style.
